

Tour a Tri-Motor Restoration Project April 21st, 2012 Port Clinton

Come with us as we head up to Port Clinton's Erie-Ottawa Regional Airport (PCW) to check up on the progress of IWASM member Lisa Benjamin and her group's Tri-Motor. Lisa is President of the "Tin Goose" Chapter 1247 of the Experimental Aircraft Association (EAA) and board member of the Tri-Motor Heritage Foundation. Both of these groups are working together to restore a 1929 Ford Tri-Motor aircraft to flying condition. She and a handful of other devoted volunteers have been working on the ground up restoration of 5-AT-#40 for nearly eight years and are happy to help preserve this piece of aviation history for future generations.

The tour will start at 10:30am, you may meet us there or meet at IWASM at 8:30 to either carpool or follow. So we may know how many people to expect, please **RSVP by April 15 to 216-623-1111**.

More information about this project can be found at: www.tingoose.org or www.TrimotorHeritageFoundation.org
